**NEW SALEM CLERK
FIRES ON THIEVES**Vada Hildreth Frightens Burglars
Away From A. J. Perkins Store
After They Obtain \$15.**GAIN ENTRANCE EARLY TODAY**Robbers Ready to Blow Open Safe
Containing Money. When Hildreth
Empties Gun at Them.

About \$15 was obtained from the A. J. Perkins store in New Salem last night when robbers broke into the store by prying the lock off the front door. Nothing of importance besides the change in the cash drawer was taken, although they had everything cleared away from the safe and from the indications were making ready to blow it open, when they were heard by Vada Hildreth, an employee of Perkins, and when he fired at them three times, they fled.

Hildreth was awakened about 2:30 this morning. He saw a light in the store, which is across the street from his house, and after a moment realized that it was a flash-light, and that the owner had no business there. He immediately got his gun and fired three times after which the intruders got away in record time.

It is not known exactly, but it is thought that there were two automobiles which carried the men away as Clifton Stamm, who lives about 1 1/2 miles east of New Salem, heard two machines pass his house between 2:30 and 3 o'clock, running at high speed, and he said that one of the cars was running without lights.

It was thought this morning by Mr. Perkins that if they had not been frightened away when they were by Mr. Hildreth, the burglars probably would have been in the safe in a very short time. In that event the robbery would have resulted in a heavy loss to him as he kept extra money there at night. Mr. Perkins has no clue as to who the men were as they made a quick getaway before anyone could arrive on the scene.

**THINK GERMANS WILL
NOT SIGN THE TREATY**Paris Opinion Changes When Whole
Document is Read—Brock-
dorff's Speech Insolent**SEES REASON FOR PESSIMISM**

Paris, May 8.—"The Germans will never sign," was the expression heard from many tongues in Paris, following the presentation of the treaty draft and Brockdorff's speech yesterday afternoon.

The reason for the increased pessimism is believed to be the effect of seeing all parts of the treaty together whereas earlier opinion were based on particular sections of which various men had personally spoken.

The impression created in French circles by Brockdorff's speech can be summed up in the word "insolent."

SEES RUSHVILLE BOYS

Mr. and Mrs. Alex Roam of this city received word from their son Archie, who is stationed at Brest, France. He had just returned from a seven day leave at Paris. While on this visit he visited his brother. He also saw Grover Waggoner, John Schriebe, Martin Carroll and Fred Higgs, all of this city. He said that they were in fine health and were anxious to return home before very long.

INJURIES ARE NOT SERIOUSLater Word Received Concerning Lt.
Hitt, Hurt in Plane Accident.

Mrs. William Hitt received a telegram late yesterday, stating that her son, Lieutenant Joe Hitt, who was reported seriously hurt in a hydroplane accident in Panama Tuesday was only slightly injured. Major Clark of California and Lieut. Tomkin of Atlanta, Georgia, who were riding with Lieut. Hitt, were killed when the plane fell in a chamber of one of the canal locks after the engine gave them trouble while flying at a low altitude. Lieut. Hitt's chances for recovery in a short time are the very best.

**ALSMAN CASE OPENED
BEFORE A JURY TODAY**Expected Evidence Would All be In-
troduced And Arguments Made
by This Evening**TRIAL IS SET FOR TOMORROW**

The case of the state against Mrs. Blanch Alsmann, accused of a serious offense in a grand jury indictment, was being tried in circuit court today before a jury, and it was expected that it would be completed by this evening because the case of the state ex rel Herkless against Manzy et al, is scheduled to begin in the morning.

Four witnesses had been introduced by the state up to the noon adjournment—John Wolter, Mrs. William Hoard and John Ferguson and Tillie Mabry, both colored. The last three live in the neighborhood of the Alsmann home. The evidence is similar to that introduced in the case of the state against John Tribby, of Arlington, who was convicted and appealed to the supreme court.

The jury hearing the case is composed of the following: Arthur E. George, Milton Milton, John Jordan, L. A. Ward, Knowles Casady, Ferd Retherford, Orville Herkless, John Morris, R. P. Havens, Bert Moses, H. E. Daubenspeck and L. B. Miller.

**SEAPLANES START ON
FIRST LEG OF JOURNEY**Three Take Air Today for Halifax
From Where They Will Start
Trans-Atlantic Flight**ESCORTED BY FIVE OTHERS.**

(By United Press.)
Rookaway Beach, New York, May 8.—Three United States navy seaplanes started for Halifax today in the first leg of their journey across the Atlantic by way of Nova Scotia Newfoundland and the Azores.

The Navy Curtis 3, carrying Commander Towers, commandant of the expedition, was the first to take the air. He was followed in short order by the other seaplanes.

Five small seaplanes circled about as the huge air boat roared into the first jump of the daring trip. A dirigible also was in the air. These six crafts were expected to form an escort for the journey as far as Montauk point where the trail leads from Long Island.

Naval officers said it was expected the flight from here to Halifax would be made in seven and one-half hours.

WELCOME FOR DECATUR MEN

Greensburg, Ind., May 8.—Tentative plans have been made by the business men of this city for a monster Welcome Home celebration to honor Decatur County service men. The affair will be held in August.

**COMMANDERY HERE
HOPES TO REPEAT**Knights Templars Will Go After
Zone Prize For Attendance at
Annual Conclave**IN INDIANAPOLIS MAY 14-15**Local Commandery Will Have to
Have From 80 to 90 Members
in Line to Get in Select List

Rushville commandery, Knights Templar, having won a cup for attendance at an annual conclave in Indianapolis several years ago, is making plans to repeat next week when the sixty-fifth annual conclave of the grand commandery of Indiana will be held in Indianapolis May 14 and 15.

Postal cards with return cards attached have been sent to the 114 members of Rushville commandery, urging their attendance, in full Templar uniform, at the conclave. Although the returns so far have not been very encouraging, officers of Rushville commandery are hoping for the best and believe that local Knights will not allow the luster of their reputation to be dimmed.

Rushville will have to have from eighty to ninety members in line in order to get in the money and it is earnestly hoped that enough will respond to the invitation for Rushville to take the zone prize. Rushville has a cup on one end of the mantle at the Masonic Temple and wants another one to balance it up.

The committee on prizes for attendance is anticipating the largest number of Templars in line and the most imposing parade of any up to the present time. An encouragement to incite greater attendance, three properly inscribed trophies will be awarded: One to a commandery from each zone having the highest percentage of membership, in full Templar uniform, in the parade, May 14. These zones have been arranged according to the mileage and accessibility, by the nearest steam and interurban routes so that each commandery will have an equitable opportunity.

Reports in the hands of the general and the arrangements committees in charge of the annual conclave indicate that a large majority of the fifty-eight commanderies in Indiana will be represented. Eleven commanderies, those at Terre Haute, Clinton, Lafayette, Kokomo, Muncie, Newcastle, Anderson, Greenfield, Franklin, Knightstown and Frankfort, will be accompanied by bands, the Lafayette commandery bringing the celebrated Purdue band of seventy pieces. Thirty others have signified their intention of sending the proper delegations.

A special committee of ladies will look after the comfort and entertainment of ladies accompanying Knights.

That this year's conclave will be the largest in the history of the grand commandery, there seems to be no doubt. No such interest as displayed this year has been in evidence in recent years. As this year is a Masonic year in Indianapolis, Knights Templarism will take front rank, upholding patriotism and the Christian religion, and striving ever for the noblest and highest ideals among men.

All arrangements and plans have been completed. Subordinate commanderies or detachments of subordinate commanderies with their officers and past officers, together with visiting Knights of other jurisdictions, all being in full Templar uniform, are courteously invited to join in the parade. Bands will march at the head of their respective commanderies. Should this arrangement bring two bands too close together for the proper dis-

TO OTHER POWERS**Big Four Begins Discussion of Pro-
gram For Presenting Terms
of Allies of Germany**GERMAN COMMENT ON TREATY**It is Declared Several Points Can't
be Accepted—Newspapers De-
nounce Indemnities

(By United Press.)
Paris, May 8.—The Big Four today began discussion of the program for presenting the peace treaty to Austria, Hungary, Bulgaria and Turkey.

The committee arranging the Austrian peace treaty has been instructed to report before Monday.

Paris, May 8.—President Wilson will make no recommendations regarding the proposed defensive alliance among the United States, Great Britain and France when it is submitted to the senate for ratification, it was learned today.

Versailles, May 8.—The German delegates worked almost all last night dissecting and analyzing the text of the peace treaty.

Foreign Minister Brockdorff today was preparing a full report which will be sent to Berlin tonight by special courier.

Berlin, May 8.—The president of the German republic, commenting on the advanced summary of the peace terms today declared that several of the points could not be accepted. One person passed his opinion by stating that 100,000 soldiers is not sufficient to maintain internal order and added, "We decline to have an eternal state of anarchy."

The newspapers pronounced the indemnities excessive and denounced disposition of Danzig and the Saar valley.

Paris, May 8.—That Germany will make known her decision regarding the peace treaty within the fifteen days limit for a discussion, was the opinion that prevailed in allied circles today.

Already reduced to military and naval impotence, the Germans additionally face the prospect of economic isolations if they dare to refuse the terms presented to them at Versailles yesterday afternoon.

The blockade division of the supreme economic council has begun preparations of plans under which an even more rigorous blockade than obtained during the war, will be clamped down on Germany in the event of her defiance.

Shortly after the conclusion of the meeting at the Trianon Palace Hotel, official announcement was made of the Big Four's decision regarding disposition of mandates over foreign German colonies, under the league of nations.

Great Britain and France will make a joint recommendation to the league of nations regarding the future of Togoland and the Cameroon. The British will exercise a mandate over German East Africa and Plesant Island.

Japan will control the German Pacific Islands north of the equator.

German colonies will be apportioned among British dominions as follows:

German south west Africa to the union of South Africa.

German Samoan Islands to New Zealand.

German Pacific Islands south of the equator to Australia.

Newspaper opinions was divided regarding the peace treaty.

"The fourteen points have been scrupulously restricted," declared the Petit Parisien. "Despite Brockdorff's words, the world has been

PROPOSED ALLIANCE TOPICWilson's Pledge to Allies Center of
Senatorial Controversy

(By United Press.)
Washington, May 8.—President Wilson's pledge to present to the United States senate a proposal for Anglo-American alliance automatically to aid France in the event of an unprovoked German attack, was the center of senatorial discussion today.

While general comment on the treaty as a whole was guarded pending study of the long document, the senators indicated the proposed special alliance makes a division in the senate equaling if not surpassing that expected to center about the league of nations discussion.

Phone and Telegraph Co.**TO BE READ TO JOINT SESSION**

(By United Press.)

Washington, May 8.—President Wilson will cable his first message to the next congress, to the United States for reading before a joint session of the house and senate, it was announced today.

This will recommend early passage of the appropriation bill and is expected to contain the president's recommendation for the proper remuneration for telephone and telegraph companies, taken over by the government during war emergencies.

In preparing his document the president will advise with Secretaries Baker and Daniels by cable as to their needs. He is already in touch with Secretary of the Treasury Glass.

The peace treaty message will come later and probably will be delivered to the joint session by the president in person.

**ROAD BONDS BEGGING
FOR BIDDERS TODAY**Prospects For Permanent Roads
Not Very Bright When Only
One of Five Issues is Sold**TOTAL OF \$161,716 OFFERED**

Prospects for building permanent roads in Rush county this summer did not look very bright this afternoon when only one bid was made on one of five road bond issues offered for sale to the highest bidders at two o'clock in the county treasurer's office. The combined issues amounted to \$161,716, and may still be sold as the first offer of par and accrued interest will be accepted.

The Arlington bank bid par and accrued interest for the issue of \$22,240 on the Tribbey cement road, most of which is in Arlington, because Arlington is anxious to have it built. The other issues offered for sale were as follows: for the John R. Weir cement road in Noble township, \$33,396; for the John G. Beale cement road in western Rushville township, \$49,280; for the John H. Power cement road north of Rushville, \$36,960; for the William T. Moore macadam road in Richland township, \$19,400.

From Court House

Reports from the thirteen banks in Rush county and additional reports from township canvassers today disclose that Victory notes are still being sold although Rush county has been reported over the top on its quota of \$825,000.

Even though the banks absorbed the difference between their quotas and their actual sales, in order that Rush county would be white on the map before the Welcome Home celebration for Indiana troops, very few of the banks have sold all of their allotments. T. M. Green, county sales director, has received additional reports which bring sales by canvassers up to \$182,750.

Prospects were very bright today, however, judging from the sales which have been made since the county was reported over the top Monday, for most of the banks to sell all of their quotas by Saturday, the end of the campaign, with some chance of a small oversubscription.

County loan officials today urged that the people of Rush county should remember, especially those who have not bought a Victory note, that they have not done their full duty until they have bought all of the Victory bonds allotted to Rush county.

A banner, which was awarded to Rush county for subscribing its quota to the Fifth loan, has been received by the county chairman and will be floating from the court house flag pole after Saturday. It was announced. The banner is about three by five feet, has a white background, with a big blue "V" in the center, and a red border.

Banks were informed in letters received today from the seventh federal reserve district bank of Chicago, that they would be allowed until May 20 to pay all or a

**NEW VAULT TO BE PUT
IN RUSH COUNTY BANK**Five Months Required to Make
Door, According to Committee
Which Made Contract**WORK WILL BEGIN AT ONCE**

A committee from the Rush County National bank composed of Lon Link, president and Frank Wilson and A. L. Riggs, directors, were in Hamilton, O., yesterday, where they contracted for a new vault for the bank. About five months will be required to make the door for the vault so that it will be at least six months before the improvement is completed, and possibly longer.

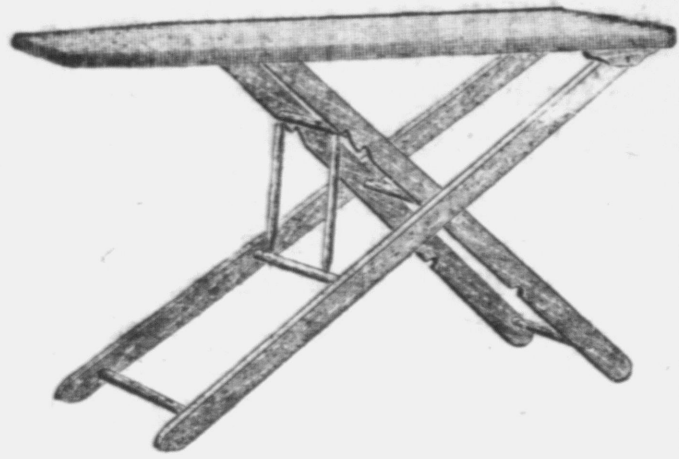

While the door is being made, the vault will be built immediately behind the present vault so that the old one may be used up until the time the door is ready to be installed. The old vault will then be moved to the basement to be used for storing valuable records and papers. The improvement will almost double the working space in the bank.

The committee yesterday first went to Dayton, Ohio, where several bank vaults were inspected, and then returned to Hamilton and went through the factory where the vault door will be made.

NEPHEW OF LOCAL WOMAN IS GASSED

Priv. William Featherston, Relative of Mrs. Herman Lambert, Mentioned in Casualty List

PREVIOUS WORD RECEIVED

The name of William Featherston, whose nearest relative is Mrs. Alice Lambert, 915 West Tenth street, is mentioned in the war department war casualty list made public today. An investigation disclosed that he is the nephew of Mrs. Lambert, wife of Herman Lambert, who is employed at the Reynolds Manufacturing company.

Mrs. Lambert received a notice a few days ago from the war department, which stated that her nephew had been slightly wounded, although it has been six months since the fighting stopped in France at the signing of the armistice. It is presumed that the wound referred to is the same as Private Featherston mentioned in a letter of Mrs. Lambert some time ago, when he stated that he had been gassed. Private Featherston registered at Vincennes because he happened to be there on registration day.

It is known that at least one of the twenty-eight Indiana men given in today's list has returned home and been discharged. Corp. Pleas E. Greenlee of Shelbyville is mentioned in the list, and he has been home for some time.

The total number of casualties made public today is 1,045, divided as follows: Killed in action, 7; died from wounds, 3; died of accident and other causes, 20; died of disease, 33; wounded severely, 31; wounded, degree undetermined, 91; wounded slightly, 857; missing in action, 3; total, 1,045.

Total number of casualties to date are: Killed in action (including 381 at sea), 32,599; died of wounds, 13,465; died of disease, 22,958; died from accident and other causes, 4,596; wounded in action (over 85 per cent returned to duty) 200,382; missing in action (not including prisoners returned and released), 3,980; total, 277,980.

Twenty-eight Indiana men were listed as follows:

Wounded, degree undetermined—Corp. Pleas E. Greenlee, Shelbyville; Private William Coombs, Marion; Private Tommy Joseph Glynn, Terre Haute; Private John G. Martin, Connorsville; Private David V. Ramsay, Angola; Private John Scull, Eaton; Private Hays Collings, Scottsburg; Private Roy Gallagher, Indianapolis; Private Lester Lowery, Marion; Private Gus A. Remy, Elwood.

Wounded severely—Private Ivan Cox, Ethel.

Wounded slightly—Private David Edward Brooke, Lafayette; Private Albert H. Kinz, Indianapolis; Lieut. Davis M. Shryer, Indianapolis; Private Walter Fred Brazil, Hammond; Private Vance Jones, Fredericksburg; Private Jack Poulas, Michigan City; Private Albert A. Schnell, Cletting; Private Claude Younger, Bloomington; Sergt. Walter Kunkle, Indianapolis; Corp. Chester A. Kratz, Jeffersonville; Private Hubert Galvin Hodupp, Jonesboro; Private Park H. A SURE WAY TO CUT YOUR SHOE EXPENSE

"It has been quite an expense to keep my boy in shoes because he is very hard on them. But since wearing shoes with Neolin Soles his shoe bill has been reduced 66 2/3%," says J. Allison Allen of Amity, Arkansas.

On the importance of Neolin Soles as a money saving factor there are thousands of parents who agree with Mr. Allen. Because Neolin Soles give extra wear where most shoes wear out quickest, they cut your shoe bills down. Ask for Neolin-soled shoes when next new shoes are needed, either for yourself or for your children. You can get them at any good shoe store. And take your worn shoes to the repair shop and have them re-bottomed with Neolin Soles.

Remember—these soles are created by Science to be waterproof and comfortable, as well as long wearing. They are made by The Goodyear Tire & Rubber Co., Akron, Ohio, who also make Wingfoot Heels—guaranteed to outwear all other heels.

A HOT SPOT Chalmers flattens the hills

A GREAT many persons enjoy the rare luxury of fooling themselves about the hill-climbing ability of their prized cars.

If you put enough power underneath the bonnet you'll get over any hill this side of the Alps.

But big engines don't make the best hill-climbers any more than a bear can climb a tree faster than a cat.

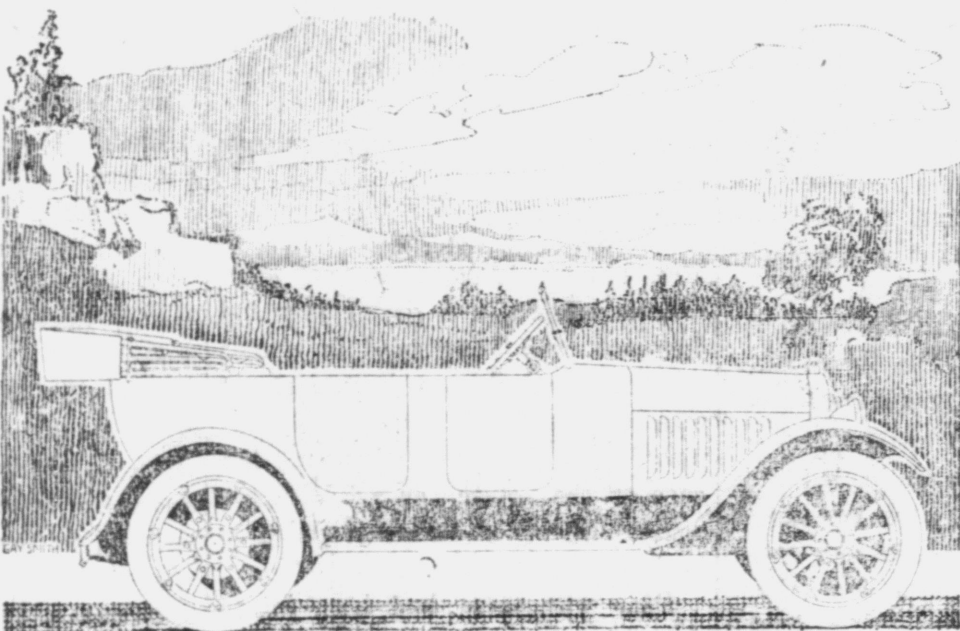

Take the Hot Spot Chalmers. You don't have to make up your mind a quarter of a mile away to turn loose the power for a fast run up the hill.

You can slow down and take it at a slow speed. For it "hangs on" and goes over without a whimper. That is the real test of a hill-climbing car. Try it.

Just why a Chalmers flattens the hills is explained in three major words: Hot Spot and Ram's-horn. These simple little devices mean that for every pint of gas that goes into the engine out comes every bit of power that Mother Nature stored away in that pint.

It means you're getting more for your money every time the engine "turns over" than with any other car.

Which ought to make anyone buying a car now take a look at this present day Hot Spot Chalmers.

PEOPLE FROM HERE REPORT GOOD TIME

Many From Rush County at Welcome Home Celebration Declare it Was a Happy Affair

CROWD WAS WELL HANDLED

Rush county people in Indianapolis yesterday for the Welcome Home celebration for Indiana soldiers, report that it was a very happy event and lived up to the traditions of the Hoosier state. They declared that the crowd, though it was the largest ever in Indianapolis, was handled very well and there was a complete absence of ruffianism.

Though many returned Rush county soldiers were present, some of them in their uniforms, very few of them participated in the parade. They preferred to stand on the side lines and watch the parade go by. The local organization of War Mothers was represented by a large delegation, all of whom had seats on one of the grandstands. Seats were not at a premium, as it was thought they would be, and several from here who had expected to stand up, were able to find a seat.

According to reports received by T. M. Green, chairman of the county council of defense, all but two members of the committee appointed to represent the county at the celebration, were present for the event.

DOCTORS HAND OUT LIVE TIPS

Take Public Into Confidence

Prominent physicians claim people fall in life because of "nerve hunger" that is the active bright-eyed, strong, nervous man or woman who is "there" at work or play.

Strong, well nourished nerves is the great secret of success, health and happiness.

Men and women try to live regardless of health, strength, ambition, energy and hope, they exceed the speed limits, wasting nerve strength and energy and fail to store up reserve force, afterwards they only exist, life has no joys.

Without energy, ambition, strong nerves, and pure blood one cannot hope to enjoy the fullest measure of success and happiness.

A noted specialist says: "Phosphated Iron brings strength to the blood, nerves and brain, that it is a perfect combination of vital elements of great tonic qualities when taken by 'Nerve-sick humans', that it will increase body and nerve energy, restore ambition and staying powers."

He also says: "If you are the victim of overwork, worry, excess of mental and physical forces, have the blues, and the pleasures of life are no longer enjoyable, that you need Phosphated Iron to brace, build you up and put you on your feet again."

Special Notice—To insure physicians and their patients getting the genuine Phosphated Iron we put up in capsules only, so do not allow dealers to substitute any pills or tablets.

Peace.

Whether the League of Nations will ever invite America to send an army to Fiume—or somewhere else—and help to eject Italians, or Jugo Slavs—or somebody else, this we know not. And, recognizing that we don't know, let us be mindful that there are many other kinds about the league whose twists are a little bewildering to us.

Peace is supremely desirable. Any kind of a league that makes any kind of a stab at preserving peace in any kind of honorable way deserves our whole-hearted endorsement. But don't let us fool ourselves that everything we want will happen automatically after a few delegates have signed their names. Half the nations of Europe seem to want war rather than peace just now. They are likely to nurse these belated enthusiasms for some time. If they are all members of the same league as ourselves, and they tell us to get in on a few of their wars because we are brother peace-leaguers, we may find the finale different from the overture. But peace is like every good thing; it is mighty hard to get; and, once acquired and insured, is worth all the effort spent in the attainment.

Farming is Attractive.

Agriculture holds one of the foremost places in popularity with the disabled soldiers who are being reeducated by the Federal Board for Vocational Education. Out of 2993 cases approved for training by the Federal Board, nearly 500 have taken up some branch of agriculture. About 400 of these have gone in for general farming, taking full courses at appropriate agricultural colleges so as to equip themselves for the operation of modern farms, accord-

ing to modern methods. In agronomy there are only 2 students; animal husbandry is being studied by 28; dairying by 13; horticulture by 15; poultry raising by 18; and truck gardening by 9.

The comparative number taking agriculture shows an increase and is rather attributable to the disabled farm folks, and deciding that the offer of free education and scientific farming made available by the government is the best thing to study after all. The inquiries coming by the opportunities of scientific farming, appear distinctly on the increase. This is very gratifying, as the need for more farmers and better farmers is so urgent at this time.

President Wilson must not be surprised at the failure of his popularity in Italy. An earlier and a greater than he heard the cry "Hosanna" today and "Crucify Him" tomorrow.

The statement made in a recent sermon that "in this life we only reach the stage of leaf and blossom" that "in this life we only various people who had apparently reached the nut stage.

HE DOES HEAVY WORK

"For five years I have been troubled with my kidneys," writes Bert Dawson, 712 E. Walnut St., Canton, Ill. "I do heavy work, and that, with being on my feet all day, is a strain on a man's kidneys. My trouble started with severe, sharp pains over my back. The medicine I took gave some relief, but the trouble came back. I bought a bottle of Foley Kidney Pills, and before it was gone, my pains had entirely left me, and I have not been troubled since." They relieve backache, rheumatism, sore, swollen and stiff muscles or joints. F. B. Johnson, Adv. 7

Digest of New Indiana Laws

By Charles Kettleborough.

COUNTY TREASURER—The bond of county treasurers under the present law is at least double the amount of money which may come into his hands at any one time during his term of office and freehold surety only is required. By virtue of an act approved March 14, 1919 the bond must be not less than the amount of money which may come into his hands at any time and bonds may be furnished by a surety company.

BANK DIRECTORS—By an act approved March 14 the number of directors in banks of discount and deposit was fixed at a minimum of 5 and the number above 5 may be changed by appropriate by-laws of the association and a majority of the directors must be citizens of the state.

ROADS—Whenever a contract has been awarded for the improvement of any road which is afterwards taken over by the state highway commission as a state road, any funds raised for the improvement of such highways are to be transferred to the general road funds of the township and used in the construction or improvement of other highways in the township.

LONDON PLANS A BIG PEACE CELEBRATION

Will be Climax of Three Days Victory Holiday to be Observed Throughout the Country.

DATE DEPENDS ON TREATY.

(By United Press.)

London, April 15. (By Mail)—London is to be a city of triumphal fiestas this summer. The pageants will include:

A triumphal parade through London the middle of the summer of the Allied commanders and representatives of all British army corps, services, ships and regiments which have taken part in the war, together with delegations from allied armies. This will be the climax of a three-days' victory holiday, to be observed throughout the country. The date will depend upon when peace is signed. It will be one of the most elaborate demonstrations ever attempted in London.

A victory parade of the City of London troops—i. e. troops with headquarters in London—followed by a review by the King.

Receptions to President Poincaré the King of Italy and the King of Belgium.

And there will be many others, to be arranged later.

Better than money, because they earn added money. War Savings Stamps.

The Fact is—

Over half the truck Tonnage of America is carried on **Firestone TIRES**

THERE are good reasons for Firestone Truck Tires carrying more than half America's truck tonnage.

Look at the trucks in this city that are mounted on Firestone Tires.

You'll find that they run faster, have fewer accidents, stand up better with less repairs, are operating with the lowest possible quantity of gasoline. Our own service here in the city co-operates with Firestone policy. Our tire presses, with power equal to many tons pressure, and our other machinery make it easy for us to change truck tires quickly.

And you know that the paying truck is the truck in the streets hauling your goods. When a truck's laid up a day for tire change, you lose far more than the cost of the change. Let us reduce tire-change time to the fewest possible minutes.

Rheumatism Leaves You Forever.

Deep Seated Uric Acid Deposits Are Dissolved and the Rheumatic Poison Starts to Leave the System Within Twenty-four Hours.

Every druggist in this county is authorized to say to every rheumatic sufferer in this vicinity that if two bottles of Allenru, the sure conqueror of rheumatism, does not stop all agony, reduce swollen joints and do away with even the slightest twinge of rheumatic pain, he will gladly return your money without comment.

Allenru has been tried and tested for years, and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and pitiable and where the patient was helpless.

Allenru relieves at once. Immediately after you start to take it the good work begins. It searches out the uric acid deposits, dissolves the secretions and drives rheumatic poison out of the body through the kidneys and bowels.

It's marvelous how quickly it acts. Blessed relief often comes in two days, and even in cases where the suffering is most painful all traces disappear in a few days.

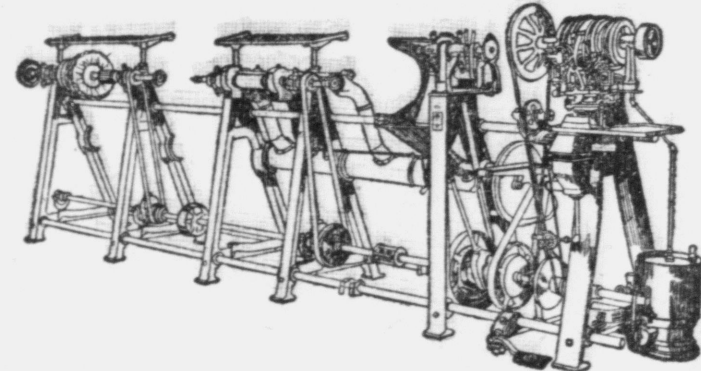

Mr. James H. Allen, the discoverer of Allenru, who for many years suffered the torments of acute rheumatism, desires all sufferers to know that he does not want a cent of anyone's money unless Allenru decisively conquers this worst of all diseases, and he has instructed all druggists to guarantee it in every instance. adv.

AMERICAN LEGION HOLDS CONVENTION

Veterans of Civil, Spanish and Most
Recent War Meet at St. Louis
Today.

CONVENTION NON PARTISAN

Expects to Wield Powerful Influence
in Determining the Policies
of the Nation.

St. Louis, May 8.—Veterans of the Mexican, Civil and Spanish American wars and the more recent veterans of the World War, are meeting here today to organize the latest and what its promoters say will be the largest of all American military organizations—the American Legion.

Mingling with the blue and gray on the streets of this convention city, are the khaki and pea green uniforms of America's land forces and the navy blue of the nation's sea fighters. They have come from all corners of the country, some independently and others accredited delegates of the companies, battalions or regiments to which they were attached.

The American Legion—which is to be the official name of the new "grand army" was conceived in Paris several months ago when a mass meeting of American soldiers and officers was held. While it will be non-partisan and non-political, the Legion expects to wield a powerful influence in determining the policies of the nation. Its power will be exerted whenever a national crisis appears. Lieut. Col. Theo. Roosevelt, was one of the originators of the American Legion.

To-day is being devoted almost entirely to informal get-together meetings and registration of the delegates. Mayor of St. Louis, the Adjutant General of the state and Senator Spencer will address the soldiers.

Tonight Mexican war veterans, the G. A. R. and the United Confederate veterans will join with the Spanish-American War veterans in tendering the American Legion delegates a reception of welcome.

To-morrow will be devoted to work in committee, with alternative of executive sessions in the morning. The delegates who are not members of the committees will be the city's guests on sight seeing tours. At night the visitors will be the city's guests at a theatre party. Saturday will be devoted to work by the delegates and at night the city will tender a huge ball at the Coliseum to the visitors.

Amusements

"The Little White Savage"

"The Little White Savage" is being shown at the Mystic theatre today. Tomorrow "Bread," featuring Mary McLaren, will be shown.

Candace Newby was hungry. She had offered to sell her talent to a theatrical manager, but not her soul. The offer had been refused and she was tormented by the barbed thrusts of hunger.

With a few pennies remaining of her legacy, she trod rainswept streets to a cheap bakery, where she bought a loaf of bread. It might put color into her cheeks and fit her for a decent place in a theatrical company forming.

She slipped to the wet pavement and the bread rolled into the gutter, a soggy mass of dough.

A limousine stopped in front of a palatial cafe. In the car was the man she thought she loved and another man who loved her worthily. The men she thought she loved stepped on the mass of bread at his feet, speared it with his umbrella and carried it aloft into the cafe as a drunken trophy of the boulevard. What did Candace do?

Saturday Bessie Barriscale in "The White Lie" is the offering.

"Tarzan of the Apes"

"Tarzan of the Apes" was shown to a large crowd at the Princess theatre today and judging from the interest taken, there will be a full house again tonight. The story takes the form of a jungle melodrama in which every possible variety of thrill is included in the Robinson Crusoe setting.

It follows the adventures of a youth, who when a small child, is stolen from his mother by a huge ape and reared in the wild woodland life. The boy is really the son of a nobleman in England, and a faithful servant who has escaped from a band of Arab slavers, endeavors to return and teach him in the ways that he should be educated in order to be the owner of a large estate.

He is foiled at every turn by the efforts of one who is posing as the rightful owner of the estate; but who is finally reduced to defeat. Meanwhile the real heir is in the jungle, where he spends his time getting the rescuing parties, sent out for him, out of their difficulties.

In one of these fights with a jungle lion he saves the life of a beautiful maiden and a jungle love affair follows. The last reel coaxes with the sentimental fadeout in which the unwitting heir finds that ignorance is bliss and that there are many other compensations for a title and estate in England.

The Ladies of the First Baptist church will hold an exchange Saturday May 10th, in the Singer-Sewing machine room in Second street. 4713

MORE RED BLOOD AND STEADIER NERVES FOR RUN DOWN PEOPLE

The World Demands, Strong, Vigorous,
Keen-Minded, Men and Women

It has been said of Americans that they work their habits overtime.

Many become nervous and inefficient by overwork.

By worry, despondency, social affairs, robbing brain and body of needed rest; excessive use of tobacco, indulgence in strong alcoholic drink—excesses of every kind that burn up the vital powers so necessary in these trying times to make both men and women fit to be of help to themselves and others.

It is time to be temperate in all things. The man or woman with impaired nerves caused by impoverished blood lacks vigor, the ambition, the endurance and the keen mind of those who avoid excesses.

Timidity, despondency, fear, trembling hands, want of confidence and even cowardliness, are due in a large measure to abused nerves.

People with plenty of red blood corpuscles and strong, healthy nerves have no desire to shirk work and lean on others for guidance and support.

There is hardly a nerve-shattered man or woman (unless of an organic disease) in America today who cannot become alert and clear in mind; vigorous and energetic in body in a very few weeks and at trifling cost.

To become strong and ambitious, to feel that work is not drudgery; to have steady nerves, abundance of red blood and power of endurance; to be not only a man but as men now go, a superman, you must take seven tablets of Bioferen every day for seven days—and take them faithfully.

Take two after each meal and one at bedtime and after seven days take one only after meal until the supply is exhausted.

Then if you feel that any claim made in this special notice is untrue—if your nerves are not twice as steady as before; if you do not feel ambitious, more vigorous and keen-minded, the pharmacist who dispensed the tablets to you will gladly hand you back just what you paid for them.

Bioferen is without doubt the grandest remedy for nervous, rundown, weak, anaemic men and women ever offered direct through druggists and is not at all expensive. All druggists in this city and vicinity have a supply on hand—sell many packages.

TO SHEAR WILSON OF HIS WAR POWER

Senator Watson Will Introduce Series of Bills or Resolutions When Congress Meets.

SURPRISED AT THEIR EXTENT.

Is Making Study of Special Authority Granted President and Administration in War.

Washington, May 8.—When the new congress meets a series of either bills or resolutions will be introduced by Senator James E. Watson, of Indiana, to repeal practically every extraordinary power granted the President and his administration during the war. Senator Watson is at this time engaged in a study of all the extra powers granted the President and the administration during the war and is astonished at the scope and extent of these powers.

Survey of the extraordinary powers, Senator Watson declares, will show that more authority has been vested in the President than any ruler among the larger powers of the world. The first intention of the Indiana senator was to introduce a single resolution to repeal every war power granted the President and thereby put the country back on a peace basis, but on examination he has found that it will be impossible to do this because of the expense of such powers as those exercised under the railroad act, repeal of which without warning would have a disastrous effect on the country. For this reason each authority granted the President during the war will be dealt with separately in the bills and resolutions to be offered and only those powers will be immediately repealed where cutting off of the powers will not injure the business of the nation or the government.

A great array of extra powers granted the President has been found. These powers include everything from the famous Overman bill and its second edition down through the espionage bill, various appropriation bills, the railroad act, the telephone and telegraph act, the cable, the express company act, and dozens of other minor powers.

Janesville Two-Row Cultivator

WHEN you sit comfortably on the easy riding Janesville Two-Row, and see every plant in every row getting *exactly the cultivation you want it to have*, you think what a blessing it is that you have a machine to do all *that work*. The old timers would think so if they could see you getting over the field so rapidly, and doing the work better than they ever did.

The Janesville Floating Arches solve the problem. They are hung by pendulums from the top bar and swing from side to side with a pendulum movement. You widen or narrow the gangs in the row with your feet. Or lock them at any width desired.

The shovels naturally follow the rows, but you can shift them to either side so quickly and so easily that you can hoe every hill without stopping the team.

Your own weight on the seat bars acts as a lever to turn the wheels slightly up hill—this big advantage takes the down-hill creep out of side-hill plowing. The entire machine is light, compact, flexible—no oiling needed except in wheel boxes.

Cultivate with a Janesville Two-Row—and you will forget that there ever was hard work in cultivation.

NEED AMERICA TO REBUILD FRANCE

Much of Reconstruction Business Will be Captured by Americans and British

"ANTIS" ARGUMENT SAME

Is Greatly to Advantage of France That There Should be as Little Delay as Possible

By WILLIAM PHILIP SIMMS
(U. P. Staff Correspondent.)

Paris, April 20, (By Mail.)—Will Americans be allowed to participate as business men in the rebuilding of Northern France?

Or will the French government throw a protective wall around the devastated regions and admit only builders of their own nationality on the theory that whatever profit is to be derived out of the reconstruction ought to go to those who have suffered most on account of the war?

This question is uppermost here now. Both sides has its defenders. Each is eloquently sustained. But there are signs that the anti-wall crowd will win and that France will welcome both American gold and American organizers and builders.

The thesis of the protective wall faction is that France is in such a run-down condition as the result of four and a half years of war that her industrial are scarcely in a position to fight successfully against their brothers from America. Americans, with their huge factories, cheap raw materials and superior organization, can build machinery such as is needed in the mills of Northern France more quickly and cheaper than can be done in France and, that such being the case, there is a danger of Americans—and the English, also a great industrial people—running away with the business of starting up Northern France again, pocketing all the profits and leaving the Frenchman in the position of Mother Hubbard's well known dog. That is, by the time he could get his business going good the job of reconstruction would be finished.

The "Antis" use the same argument, but with reverse English. They admit much of the reconstruction business would be captured by Americans and British because they are in a position to do the work without delay,—BUT—and here is the whole point—it is greatly to the advantage of France as a nation that there should be as little delay as possible. They point out that Germany has not been damaged by shell-fire; that her mills are in a going condition; that, in order to keep the economical life of Germany going, German industries must be allowed to start up as soon

NOT EXPECTED TO GIVE UP THE FORMER KAISER

Dutch Will Contend Their Laws Apply Since He Entered Holland as Private Citizen

(By United Press.)

The Hague, May 8.—That Holland will refuse the expected demand of the allies to turn Wilhelm Hohenzollern over to them for trial was indicated in information obtained from confidential sources today.

A commission of the best international lawyers in Holland, which was appointed to examine the question, made secret reports to the Dutch government. The report recommended that Holland act strictly in accordance with the international treaty to which she is a party. The government contends the former kaiser entered this country as a private citizen and that Dutch law applies to his case.

Only One Corn Peeler, "Gets-It"

Stop Corn Pains; See Corn Peel Off.

It is just when a corn hurts that you want to feel sure about getting rid of it. Why take chances of keeping the corn and having the pain grow worse? You'll use "Gets-It."

The Only Peel-It-Off Way Is "Gets-It." It's anyhow, sooner of later, might as well use it sooner. Then you are absolutely sure that the corn will loosen from your toe so that you can peel the whole thing off painlessly with your fingers, in one complete piece—just like peeling a banana. It takes a second or two to apply "Gets-It." There's no fussing or putting. Corn-pains will vanish—that'll keep you sweet while the "Gets-It" does the rest. Nothing new for corns has been discovered since "Gets-It" was born. Follow the judgment of the millions; use "Gets-It" and be sure to be corn and pain free! You'll say it's magic. "Gets-It," the guaranteed, money-back corn-remover, the only "sure way," costs but a trifle at any drug store. M'd by E. Lawrence & Co., Chicago, Ill.

The Cash Value of Public Opinion

Like a dirty, frayed collar on a man in a \$60.00 suit, an "untidy" fence discounts a fine farm in public opinion.
And as a clean collar offsets to a great extent the frayed "hand-me-down," a Page fence adds dignity and prestige to the humblest farm home.
Your banker, your storekeeper, your neighbors, the man who may be looking around to buy a farm—their opinions are based partly—sometimes strongly—upon what they see.
And their opinions have a cash value that will be a big asset to you in your business transactions with them.
A PAGE FENCED FARM IS NOT ONLY THE SIGN OF A GOOD FARMER But is also reliable evidence that the good farmer HAS A GOOD FARM. The reputation of your farm is a business asset which deserves protection.
We sell Page, Elwood and American Fence.
We give 5% off for cash.

NEPHEW OF LOCAL WOMAN IS GASSED

Priv. William Featherston, Relative of Mrs. Herman Lambert, Mentioned in Casualty List

PREVIOUS WORD RECEIVED

The name of William Featherston, whose nearest relative is Mrs. Alice Lambert, 915 West Tenth street, is mentioned in the war department war casualty list made public today. An investigation disclosed that he is the nephew of Mrs. Lambert, wife of Herman Lambert, who is employed at the Reynolds Manufacturing company.

Mrs. Lambert received a notice a few days ago from the war department, which stated that her nephew had been slightly wounded, although it has been six months since the fighting stopped in France at the signing of the armistice. It is presumed that the wound referred to is the same as Private Featherston mentioned in a letter of Mrs. Lambert some time ago, when he stated that he had been gassed. Private Featherston registered at Vincennes because he happened to be there on registration day.

It is known that at least one of the twenty-eight Indiana men given in today's list has returned home and been discharged. Corp. Pleas E. Greenlee of Shelbyville is mentioned in the list, and he has been home for some time.

The total number of casualties made public today is 1,045, divided as follows: Killed in action, 7; died from wounds, 3; died of accident and other causes, 20; died of disease, 33; wounded severely, 31; wounded, degree undetermined, 91; wounded slightly, 857; missing in action, 3; total, 1,045.

Total number of casualties to date are: Killed in action (including 381 at sea), 32,399; died of wounds, 13,463; died of disease, 22,958; died from accident and other causes, 4,596; wounded in action (over 85 per cent returned to duty), 200,382; missing in action (not including prisoners returned and released), 3,980; total, 277,980.

Twenty-eight Indiana men were listed as follows:

Wounded, degree undetermined—Corp. Pleas E. Greenlee, Shelbyville; Private William Coombs, Marion; Private Tommy Joseph Glynn, Terre Haute; Private John G. Martin, Connersville; Private David V. Ramsay, Angola; Private John Scull, Eaton; Private Hays Collings, Scottsburg; Private Roy Gallagher, Indianapolis; Private Lester Lowery, Marion; Private Gus A. Remy, Elwood.

Wounded severely—Private Ivan Cox, Ethel.

Wounded slightly—Private David Edward Brooke, Lafayette; Private Albert H. Kinz, Indianapolis; Lieut. Davis M. Shryer, Indianapolis; Private Walter Fred Brazil, Hammond; Private Vamee Jones, Fredricksburg; Private Jack Poulas, Michigan City; Private Albert A. Schnell, Cletting; Private Claude Younger, Bloomington; Sergt. Walter Kunkle, Indianapolis; Corp. Chester A. Kratz, Jeffersonville; Private Hubert Galvin Hodupp, Jonesboro; Private Park H. Wilker, Indianapolis; Private Cleo Williams, Stewartsville; Private William Featherston, Rushville.

A SURE WAY TO CUT YOUR SHOE EXPENSE

It has been quite an expense to keep my boy in shoes because he is very hard on them. But since wearing shoes with Neslin Soles his shoe bill has been reduced 66 2/3%, says J. Allison Allen of Amity, Arkansas.

On the importance of Neslin Soles as a money saving factor there are thousands of parents who agree with Mr. Allen. Because Neslin Soles give extra wear where most shoes wear out quickest, they cut your shoe bills down. Ask for Neslin-soled shoes when next new shoes are needed, either for yourself or for your children. You can get them at any good shoe store. And take your worn shoes to the repair shop and have them re-bottomed with Neslin Soles.

Remember—these soles are created by Science to be waterproof and comfortable, as well as long wearing. They are made by The Goodyear Tire & Rubber Co., Akron, Ohio, who also make Wingfoot Heels—guaranteed to outlast all other heels.

A HOT SPOT Chalmers flattens the hills

A GREAT many persons enjoy the rare luxury of fooling themselves about the hill-climbing ability of their prized cars.

If you put enough power underneath the bonnet you'll get over any hill this side of the Alps.

But big engines don't make the best hill-climbers any more than a bear can climb a tree faster than a cat.

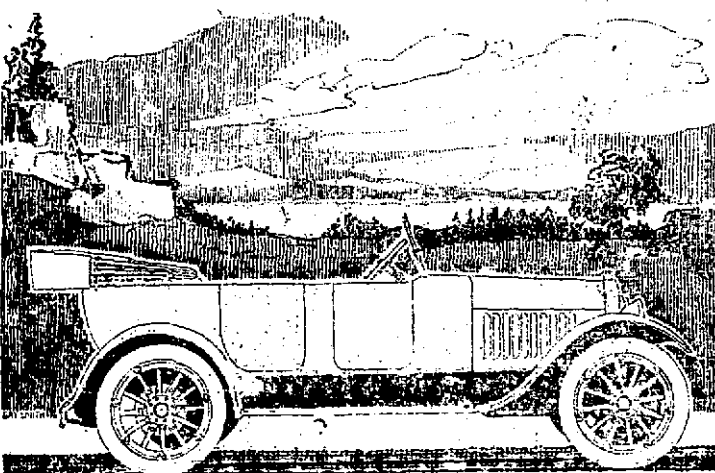

Take the Hot Spot Chalmers. You don't have to make up your mind a quarter of a mile away to turn loose the power for a fast run up the hill.

You can slow down and take it at a slow speed. For it "hangs on" and goes over without a whimper. That is the real test of a hill-climbing car. Try it.

Just why a Chalmers flattens the hills is explained in three major words: Hot Spot and Ram's-horn. These simple little devices mean that for every pint of gas that goes into the engine out comes every bit of power that Mother Nature stored away in that pint.

It means you're getting more for your money every time the engine "turns over" than with any other car.

Which ought to make anyone buying a car now take a look at this present day Hot Spot Chalmers.

PEOPLE FROM HERE REPORT GOOD TIME

Many From Rush County at Welcome Home Celebration Declare it Was a Happy Affair.

CROWD WAS WELL HANDLED

Rush county people in Indianapolis yesterday for the Welcome Home celebration for Indiana soldiers, report that it was a very happy event and lived up to the traditions of the Hoosier state. They declared that the crowd, though it was the largest ever in Indianapolis, was handled very well and there was a complete absence of ruffianism.

Though many returned Rush county soldiers were present, some of them in their uniforms, very few of them participated in the parade. They preferred to stand on the sidelines and watch the parade go by. The local organization of War Mothers was represented by a large delegation, all of whom had seats on one of the grandstands. Seats were not at a premium, as it was thought they would be, and several from here who had expected to stand up, were able to find a seat.

According to reports received by T. M. Green, chairman of the county council of defense, all but two members of the committee appointed to represent the county at the celebration, were present for the event.

DOCTORS HAND OUT LIVE TIPS

Take Public Into Confidence

Prominent physicians claim people fail in life because of "nerve hunger" that is the active bright-eyed, strong nerved man or woman who is "there" at work or play.

Strong, well nourished nerves is the great secret of success, health and happiness.

Men and women try to live regardless of health, strength, ambition, energy and hope, they exceed the speed limits, wasting nerve strength and energy and fail to store up reserve force, afterwards they only exist, life has no joys.

Without energy, ambition, strong nerves, and pure blood one cannot hope to enjoy the fullest measure of success and happiness.

A noted specialist says, "Phosphated Iron brings strength to the blood, nerves and brain, that it is a perfect combination of vital elements of great tonic qualities when taken by 'Nerve-sick humans', that it will increase body and nerve energy, restore ambition and staying powers."

He also says: "If you are the victim of overwork, worry, excess of mental and physical forces, have the blues, and the pleasures of life are no longer enjoyable, that you need Phosphated Iron to brace, build you up and put you on your feet again."

Special Notice—To insure physicians and their patients getting the genuine Phosphated Iron we put up in capsules only, so do not allow dealers to substitute any pills or tablets.

Peace.

Whether the League of Nations will ever invite America to send an army to Fiume—or somewhere else—and help to eject Italians, or Jugo Slavs—or somebody else, this we know not. And, recognizing that we don't know, let us be mindful that there are many other kinds about the league whose twists are a little bewildering to us.

Peace is supremely desirable. Any kind of a league that makes any kind of a stab at preserving peace in any kind of honorable way deserves our whole-hearted endorsement. But don't let us fool ourselves that everything we want will happen automatically after a few delegates have signed their names. Half the nations of Europe seem to want war rather than peace just now. They are likely to nurse these bellicose enthusiasms for some time. If they are all members of the same league as ourselves, and they tell us to get in on a few of their wars because we are brother peace-leaguers, we may find the finale different from the overture. But peace is like every good thing: it is mighty hard to get; and, once acquired and insured, is worth all the effort spent in the attainment.

Farming is Attractive.

Agriculture holds one of the foremost places in popularity with the disabled soldiers who are being reeducated by the Federal Board for Vocational Education. Out of 2993 cases approved for training by the Federal Board, nearly 500 have taken up some branch of agriculture. About 400 of these have gone in for general farming, taking full courses at appropriate agricultural colleges so as to equip themselves for the operation of modern farms, accord-

ing to modern methods. In agronomy there are only 2 students; animal husbandry is being studied by 28; dairying by 13; horticulture by 15; poultry raising by 18; and truck gardening by 9.

The comparative number taking agriculture shows an increase and is rather attributable to the disabled farm folks, and deciding that the offer of free education and scientific farming made available by the government is the best thing to study after all. The inquiries coming by the opportunities of scientific farming, appear distinctly on the increase. This is very gratifying, as the need for more farmers and better farmers is so urgent at this time.

President Wilson must not be surprised at the failure of his popularity in Italy. An earlier and a greater than he heard the cry "Hosanna" today and "Crucify Him" tomorrow.

The statement made in a recent sermon that "in this life we only reach the stage of leaf and blossom" that "in this life we only various people who had apparently reached the nut stage.

HE DOES HEAVY WORK

"For five years I have been troubled with my kidneys," writes Bert Dawson, 712 E. Walnut St., Canton, Ill. "I do heavy work, and that, with being on my feet all day, is a strain on a man's kidneys. My trouble started with severe, sharp pains over my back. The medicine I took gave some relief, but the trouble came back. I bought a bottle of Foley Kidney Pills, and before it was gone, my pains had entirely left me, and I have not been troubled since." They relieve backache, rheumatism, sore, swollen and stiff muscles or joints. F. B. Johnson, Adv. 7

Digest of New Indiana Laws

By Charles Kettleborough.

COUNTY TREASURER—The bond of county treasurers under the present law is at least double the amount of money which may come into his hands at any one time during his term of office and freehold surety only is required. By virtue of an act approved March 14, 1919 the bond must be not less than the amount of money which may come into his hands at any time and bonds may be furnished by a surety company.

BANK DIRECTORS—By an act approved March 14 the number of directors in banks of discount and deposit was fixed at a minimum of 5 and the number above 5 may be changed by appropriate by-laws of the association and a majority of the directors must be citizens of the state.

ROADS—Whenever a contract has been awarded for the improvement of any road which is afterwards taken over by the state highway commission as a state road, any funds raised for the improvement of such highways are to be transferred to the general road funds of the township and used in the construction or improvement of other highways in the township.

LONDON PLANS A BIG PEACE CELEBRATION

Will be Climax of Three Days Victory Holiday to be Observed Throughout the Country.

DATE DEPENDS ON TREATY.

(By United Press.)

London, April 15. (By Mail)—London is to be a city of triumphal fiestas this summer. The pageants will include:

A triumphal parade through London the middle of the summer of the Allied commanders and representatives of all British army corps, services, ships and regiments which have taken part in the war, together with delegations from allied armies. This will be the climax of a three-days' victory holiday, to be observed throughout the country.

The date will depend upon when peace is signed. It will be one of the most elaborate demonstrations ever attempted in London.

A victory parade of the City of London troops—i. e. troops with headquarters in London—followed by a review by the King.

Receptions to President Poincaré the King of Italy and the King of Belgium.

And there will be many others, to be arranged later.

THERE are good reasons for Firestone Truck Tires carrying more than half America's truck tonnage.

Look at the trucks in this city that are mounted on Firestone Tires.

You'll find that they run faster, have fewer accidents, stand up better with less repairs, are operating with the lowest possible quantity of gasoline.

Our own service here in the city co-operates with Firestone

policy. Our tire presses, with power equal to many tons pressure, and our other machinery make it easy for us to change truck tires quickly.

And you know that the paying truck is the truck in the streets hauling your goods. When a truck's laid up a day for tire change, you lose far more than the cost of the change. Let us reduce tire-change time to the fewest possible minutes.

Rheumatism Leaves You Forever.

Deep Seated Uric Acid Deposits Are Dissolved and the Rheumatic Poison Starts to Leave the System Within Twenty-four Hours.

Every druggist in this county is authorized to say to every rheumatic sufferer in this vicinity that if two bottles of Allenru, the sure conqueror of rheumatism, does not stop all agony, reduce swollen joints and do away with even the slightest twinge of rheumatic pain, he will gladly return your money without comment.

Allenru has been tried and tested for years, and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and pitiable and where the patient was helpless.

Allenru relieves at once. Immediately after you start to take it the good work begins. It searches out the uric acid deposits, dissolves the secretions and drives rheumatic poison out of the body through the kidneys and bowels.

It's marvelous how quickly it acts. Blessed relief often comes in two days, and even in cases where the suffering is most painful all traces disappear in a few days.

Mr. James H. Allen, the discoverer of Allenru, who for many years suffered the torments of acute rheumatism, desires all sufferers to know that he does not want a cent of anyone's money unless Allenru decisively conquers this worst of all diseases, and he has instructed all druggists to guarantee it in every instance. adv.

AMERICAN LEGION HOLDS CONVENTION

Veterans of Civil, Spanish and Most Recent War Meet at St. Louis Today.

CONVENTION NON PARTISAN

Expects to Wield Powerful Influence in Determining the Policies of the Nation.

St. Louis, May 8.—Veterans of the Mexican, Civil and Spanish American wars and the more recent veterans of the World War, are meeting here today to organize the latest and what its promoters say will be the largest of all American military organizations—the American Legion.

Mingling with the blue and gray on the streets of this convention city, are the khaki and pea green uniforms of America's land forces and the navy blue of the nation's sea fighters. They have come from all corners of the country, some independently and others accredited delegates of the companies, battalions or regiments to which they were attached.

The American Legion—which is to be the official name of the new "grand army" was conceived in Paris several months ago when a mass meeting of American soldiers and officers was held. While it will be non-partisan and non-political, the Legion expects to wield a powerful influence in determining the policies of the nation. Its power will be exerted whenever a national crisis appears. Lieut. Col. Theo. Roosevelt, was one of the originators of the American Legion.

To-day is being devoted almost entirely to informal get-together meetings and registration of the delegates. Mayor of St. Louis, the Adjutant General of the state and Senator Spencer will address the soldiers.

Tonight Mexican war veterans, the G. A. R. and the United Confederate veterans will join with the Spanish-American War veterans in tendering the American Legion delegates a reception of welcome.

To-morrow will be devoted to work in committee, with alternative of executive sessions in the morning. The delegates who are not members of the committees will be the city's guests on sight seeing tours. At night the visitors will be the city's guests at a theatre party. Saturday will be devoted to work by the delegates and at night the city will tender a huge ball at the Coliseum to the visitors.

Amusements

"The Little White Savage"

"The Little White Savage" is being shown at the Mystic theatre today. Tomorrow "Bread," featuring Mary McLaren, will be shown.

Candace Newby was hungry. She had offered to sell her talent to a theatrical manager, but not her soul. The offer had been refused and she was tormented by the barbed thrusts of hunger.

With a few pennies remaining of her legacy, she trod rain-swept streets to a cheap bakery, where she bought a loaf of bread. It might put color into her cheeks and fit her for a decent place in a theatrical company forming.

She slipped to the wet pavement and the bread rolled into the gutter, a soggy mass of dough.

A limousine stopped in front of a palatial cafe. In the car was the man she thought she loved and another man who loved her worthily. The man she thought she loved stepped on the mass of bread at his feet, speared it with his umbrella and carried it aloft into the cafe as a drunken trophy of the boulevard.

What did Candace do? Saturday Bessie Barrisale in "The White Lie" is the offering.

"Tarzan of The Apes"

"Tarzan of the Apes" was shown to a large crowd at the Princess theatre today and judging from the interest taken, there will be a full house again tonight. The story takes the form of a jungle melodrama in which every possible variety of thrill is included in the Robinson Crusoe setting.

It follows the adventures of a youth, who when a small child, is stolen from his mother by a huge ape and reared in the wild woodland life. The boy is really the son of a nobleman in England, and a faithful servant who has escaped from a band of Arab slavers, endeavors to return and teach him in the ways that he should be educated in order to be the owner of a large estate.

He is foiled at every turn by the efforts of one who is posing as the rightful owner of the estate; but who is finally reduced to defeat. Meanwhile the real heir is in the jungle, where he spends his time getting the rescuing parties, sent out for him, out of their difficulties.

In one of these fights with a jungle lion he saves the life of a beautiful maiden and a jungle love affair follows. The last reel closes with the sentimental fadeout in which the unwitting heir finds that ignorance is bliss and that there are many other compensations for a title and estate in England.

The Ladies of the First Baptist church will hold an exchange Saturday May 10th, in the Singer-Sewing machine room in Second street.

TO SHEAR WILSON OF HIS WAR POWER

Senator Watson Will Introduce Series of Bills or Resolutions When Congress Meets.

SURPRISED AT THEIR EXTENT.

Is Making Study of Special Authority Granted President and Administration in War.

Washington, May 8.—When the new congress meets a series of either bills or resolutions will be introduced by Senator James E. Watson, of Indiana, to repeal practically every extraordinary power granted the President and his administration during the war. Senator Watson is at this time engaged in a study of all the extra powers granted the President and the administration during the war and is astonished at the scope and extent of these powers.

Survey of the extraordinary powers, Senator Watson declares, will show that more authority has been vested in the President than any ruler among the larger powers of the world. The first intention of the Indiana senator was to introduce a single resolution to repeal every war power granted the President and thereby put the country back on a peace basis, but on examination he has found that it will be impossible to do this because of the expense of such powers as those exercised under the railroad act, repeal of which without warning would have a disastrous effect on the country. For this reason each authority granted the President during the war will be dealt with separately in the bills and resolutions to be offered and only those powers will be immediately repealed where cutting off of the powers will not injure the business of the nation or the government.

A great array of extra powers granted the President has been found. These powers include everything from the famous Overman bill and its second edition down through the espionage bill, various appropriation bills, the railroad act, the telephone and telegraph act, the cable, the express company act, and dozens of other minor powers.

WORSE THAN DEADLY POISON GAS

Kidney disease is no respecter of persons. It attacks young and old alike. In most cases the victim is warned of the approaching danger. Nature fights back. Headache, indigestion, insomnia, lame back, humming, sciatica, rheumatism, pain in the joints and lower abdomen, difficulty in urinating, all are indications of trouble brewing in your kidneys.

When such symptoms appear you will almost certainly find quick relief in GOLD MEDAL HAZELDEN OIL CAPSULES.

This famous old remedy has stood the test for two hundred years in helping mankind to fight off disease. It is imported direct from the home laboratories in Holland, where it has helped to develop the Dutch into one of the sturdiest and healthiest races in the world, and it may be had at almost every drug store. Your money promptly refunded if it does not relieve you. Be sure to get the genuine GOLD MEDAL Brand. In sealed packages, three sizes.

Janesville Two-Row Cultivator

WHEN you sit comfortably on the easy riding Janesville Two-Row, and see every plant in every row getting *exactly the cultivation you want it to have*, you think what a blessing it is that you have a machine to do all that work. The old timers would think so if they could see you getting over the field so rapidly, and doing the work better than they ever did.

The Janesville Floating Arches solve the problem. They are hung by pendulums from the top bar and swing from side to side with a pendulum movement. You widen or narrow the gangs in the row with your feet. Or lock them at any width desired.

The shovels naturally follow the rows, but you can shift them to either side so quickly and so easily that you can hoe every hill without stopping the team.

Your own weight on the seat bars acts as a lever to turn the wheels slightly up hill—this big advantage takes the down-hill creep out of side-hill plowing. The entire machine is light, compact, flexible—no oiling needed except in wheel boxes.

Cultivate with a Janesville Two-Row—and you will forget that there ever was hard work in cultivation.

NEED AMERICA TO REBUILD FRANCE

Much of Reconstruction Business Will be Captured by Americans and British

"ANTIS" ARGUMENT SAME

Is Greatly to Advantage of France That There Should be as Little Delay as Possible

By WILLIAM PHILIP STUBBS
(U. S. Staff Correspondent.)

Paris, April 20. (By Mail.)—Will Americans be allowed to participate as business men in the rebuilding of Northern France?

Or will the French government throw a protective wall around the devastated regions and admit only builders of their own nationality on the theory that whatever profit is to be derived out of the reconstruction ought to go to those who have suffered most on account of the war?

This question is uppermost here now. Both sides has its defenders. Each is eloquently sustained. But there are signs that the anti-wall crowd will win and that France will welcome both American gold and American organizers and builders.

The thesis of the protective wall faction is that France is in such a run-down condition as the result of four and a half years of war that her industrialists are scarcely in a position to fight successfully against their brothers from America. Americans, with their huge factories, cheap raw materials and superior organization, can build machinery such as is needed in the mills of Northern France more quickly and cheaper than can be done in France and, that such being the case, there is a danger of Americans—and the English, also a great industrial people—running away with the business of starting up Northern France again, pocketing all the profits and leaving the Frenchman in the position of Mother Hubbard's well known dog. That is, by the time he could get his business going good the job of reconstruction would be finished.

The "Antis" use the same argument, but with reverse English. They admit much of the reconstruction business would be captured by Americans and British because they are in a position to do the work without delay. BUT—and here is the whole point—it is greatly to the advantage of France as a nation that there should be as little delay as possible. They point out that Germany has not been damaged by shell-fire: that her mills are in a going condition; that, in order to keep the economical life of Germany going, German industries must be allowed to start up as soon

NOT EXPECTED TO GIVE UP THE FORMER KAISER

Dutch Will Contend Their Laws Apply Since He Entered Holland as Private Citizen

(By United Press.)

The Hague, May 8.—That Holland will refuse the expected demand of the allies to turn Wilhelm Hohenzollern over to them for trial was indicated in information obtained from confidential sources today.

A commission of the best international lawyers in Holland, which was appointed to examine the question, made secret reports to the Dutch government. The report recommended that Holland act strictly in accordance with the international treaty to which she is a party. The government contends the former kaiser entered this country as a private citizen and that Dutch law applies to his case.

Only One Corn Peeler, "Geta-It"

Stop Corn Pains; See Corn Peel Off.

It is just when a corn hurts that you want to feel surest about getting rid of it. Why take chances of keeping the corn and having the pain grow worse? You'll use "Geta-It."

The Only Peel-It-Off Way Is "Geta-It." It's anyhow, sooner or later, might as well use it sooner. Then you are absolutely sure that the corn will loosen from your toe so that you can peel the whole thing off painlessly with your fingers, in one complete piece—just like peeling a banana. It takes a second or two to apply "Geta-It." There's no fussing or putting. Corn-pains will vanish—that'll keep you sweet, while the "Geta-It" does the rest. Nothing new for corns has been discovered since "Geta-It" was born. Follow the judgment of the millions; use "Geta-It" and be sure to be corn and pain free! You'll say it's magic. "Geta-It," the guaranteed, money-back corn-remover, the only sure way, costs but a trifle at any drug store. Mfg'd by E. Lawrence & Co., Chicago, Ill.

The Cash Value of Public Opinion

Like a dirty, frayed collar on a man in a \$60.00 suit, an "untidy" fence discounts a fine farm in public opinion.

And as a clean collar offsets to a great extent the frayed "hand-me-down," a Page fence adds dignity and prestige to the humblest farm home.

Your banker, your storekeeper, your neighbors, the man who may be looking around to buy a farm—their opinions are based partly—sometimes strongly—upon what they see.

And their opinions have a cash value that will be a big asset to you in your business transactions with them.

A PAGE FENCED FARM IS NOT ONLY

THE SIGN OF A GOOD FARMER

But is also reliable evidence that the good farmer HAS A GOOD FARM. The reputation of your farm is a business asset which deserves protection.

We sell Page, Elwood and American Fence.

We give 5% off for cash.
